

Ship it via the U.S. Postal Service!

Item: NEW Official Anaheim Ducks Hoodie - \$22 (Firm)

Sold to: Angie

CARRIER: U. S. Postal Service

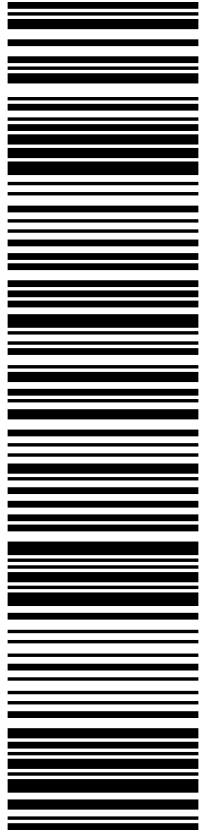

Attach the label below to your OfferUp package, then drop it off at any **post office**.

Expert packaging tips:

1. Choose a plain, sturdy box big enough for the item and padding.
2. Keep the item from touching the outer box by using padding like crumpled newspaper, grocery bags, or bubble wrap.
3. Give the box a shake: does the item move? If so, use more padding!
4. Make sure the box won't come open by sealing it with 2-inch wide tape.
5. Attach the label below by taping down each edge with clear tape.
6. If the package contains any batteries (including lithium batteries), the box **MUST** be correctly labeled using black permanent marker with the following text: "Restricted Electronic Device" and "Surface Transportation Only."
7. Make sure to pack any hazardous materials, as defined by the USPS, in a separate box. They can't be intermixed with non-hazardous materials. Additionally, the box **MUST** be correctly labeled using black permanent marker with the following text: "Surface Transportation Only." (for classification of hazardous materials by USPS see <https://faq.usps.com/s/article/What-Does-USPS-Classify-as-Hazardous-Materials>)

If you have questions, find answers on <http://ask.offerup.com>.
